

Professional Summary

Web developer and marketing automation specialist with 15+ years of experience building custom web applications, internal tools, and API integrations. Skilled in PHP, JavaScript, HTML/CSS, and SQL, with a record of turning business needs into tracked, reportable systems (mass email, gift card delivery, newsletters, vendor portals, auctions). Former physics and chemistry educator who brings clear communication, training ability, and a knack for explaining technical work to non-technical teams.

Technical Skills

- **Languages and Frameworks:** PHP, JavaScript, HTML, CSS, Bootstrap, ASP
- **Databases:** MySQL, MSSQL, Microsoft Access, SQL; database migration and updates
- **APIs and Integrations:** HubSpot API, Brevo, LGM, First Touch, Clay, credit card processing
- **Marketing Automation:** HubSpot reporting, workflows, and process improvement; email tracking and notifications
- **Design Tools:** Photoshop, ImageReady, Flash, Dreamweaver

Professional Experience

Operations, Marketing Automation | Swivel and Cincom, Cincinnati, OH

- Program in PHP, Bootstrap, JavaScript, and CSS.

Web Developer, Marketing Automation | Cincom, Cincinnati, OH

December 2014 - July 2024

Built custom web applications and internal tools supporting marketing and sales. Key projects:

- **Mass email system** with tracking and notifications
- **Gift card delivery system** with tracking and notifications
- **International newsletter application** with tracking and reporting
- **Focused demonstration system** for sales presentations
- **Vendor page system** with tracking
- **Trade show scraping system** that loads collected data into a database
- **Auction system**
- **HubSpot efficiency tools** built on the HubSpot API
- Additional internal tools and systems for marketing and sales teams

Chemistry Teacher / Technology Advisor | Little Miami High School, Morrow, OH

August 2012 - August 2014

- Taught honors chemistry classes, including labs.
- Built a building administration site, a conference scheduling system, and a personal teacher administration application.

Academic Specialist / Technology Specialist | GEAR UP, University of Cincinnati, Cincinnati, OH

February 2009 - August 2012

- Supported academic goals for a cohort of 8th, 9th, and 10th grade students, guiding them toward college and life skills.
- Created an online documentation system that interfaced with Cincinnati Public Schools.
- Provided technology support for the program and its members.

Physics Teacher (Adjunct) | Cincinnati State Community College, Cincinnati, OH

August 2011 - June 2012

- Taught Physics III (Optics and Electromagnetism), including lectures and labs.

Contract Web Developer | Robert Half Technology, Cincinnati, OH

June 2008 - August 2012

- Developed websites and applications for PHC Group and Basco Shower Door using ASP, PHP, JavaScript, Access, SQL, MSSQL, HTML, and CSS.
- Implemented credit card processing.

Software Trainer / Web Developer | Three Point Technologies, Columbus, MS

August 2007 - June 2008

- Built numerous websites using PHP, MySQL, ASP, Access, and JavaScript, with Photoshop, ImageReady, Flash, and Dreamweaver for design.
- Delivered applications for scheduling, payroll, and reservations.

Senior Vice President, Technical Liaison | Lottery.com, Cincinnati, OH

May 2000 - September 2003

- Served as liaison to state lottery commissions and managed an online development team.
- Created services and projects for state lotteries, along with processes and system documentation.

Ad Design Manager | Microsoft / Cendant Online Services, Cincinnati, OH

January 1999 - March 2003

- Managed production of websites and advertising for Microsoft Sidewalk, working with customers, sales, administrative staff, and graphic artists.
- Created an online proofing website where clients could view and approve their sites and ads, cutting approval time from weeks to minutes.

Earlier Career: Education

Taught physics, chemistry, and pre-calculus while building technology tools for schools:

- **Harmony High School** (2004-2006), College Preparatory Division Lead: managed a team of 4 teachers, created the school website, and built a bar-code-readable student ID system.
- **East End Community Heritage School** (2003-2004): created an online database for academic reporting and report cards; partnered with Cincinnati State for lab access.
- **Covington Latin School** (2006-2007): taught physics, chemistry, and pre-calculus.
- **Western Hills High School, Cincinnati Public Schools** (1998-1999): taught physics and chemistry and served as LAN computer lab administrator, troubleshooting and administering the school network.
- **Amelia High School** (1989-1998): taught AP Physics, Chemistry, and Advanced Chemistry. Created online tournament scoring systems for OMEA marching band competitions and academic team tournaments. Built an academic team from 4 students to 40, co-founded the Clermont County Science Olympiad, and earned two Teacher of the Year nominations.

Education

Master's Degree, Curriculum and Instruction (Emphasis in Technology), University of Cincinnati, Cincinnati, OH, 1998-1999

- Produced the first master's thesis project submitted on compact disc.

Bachelor's Degree, Physics Education (Minor in Chemistry), Bowling Green State University, Bowling Green, OH, 1985-1989

- Honors Chemistry; selected by a physics professor for a physics outreach program teaching elementary students in a mobile laboratory.
